EDUCATION

University of California, Riverside   Sept 2019 - March 2023
B.S. Computer Science

PROJECTS

UCR Map App   Oct 2022 - March 2023
Course Team Project

- Collaboration to create a more accessible and centralized campus map.
- Agile development of a mobile-application for Android and iOS using React Native.
- Compile and create GeoJSON data for campus building and classroom information.
- Design front-end map components to parse through JSON files, displaying buildings and toggling between floor plans.

NBA Analytics Web App   Apr 2022 - May 2022
Course Team Project

- Design and build a responsive web-application to display and analyze a public NBA player database.
- Utilize React.JS to design frontend components for data visualization (datatable, bar graph, pie chart).
- Utilize Flask to maintain and access the NBA dataset.
- Implement UI features for editing and querying the database.

WORK

Academic Student Employee, Reader   Riverside, CA
University of California - Riverside   Sept 2021 - March 2023

- Analyze student programming projects and provide feedback for programming logic and concepts.
- Increased response time to students for feedback.

TECHNICAL SKILLS

- Programming: Java, C++, Python, Javascript, SQL, HTML/CSS
- Tools: React, React Native, Selenium, Visual Studio Code
